

Pi thinkTANK

How might we make our churches more relevant?

- 1) For young people from the church.
- 2) For young people outside the church.

Interest groups

Establishing specific interest-centered groups for people sharing the same hobby.

Trips to orphanages

**Spending 1-2 weeks in an
orphanage with youth.**

Start-ups for good

Creating within the church a start-up sponsored by local entities that covers the basic needs of homeless people.

Trash Racing

**Going out running with
garbage bags and picking
up trash by squatting.
Exercise and protection
of the environment at the
same time.**

Sing & chill

Starting a week in summer with music: inviting excluded groups, creating new songs, improving musical skills and giving a charity concert at the end.

Sermon in the mountains

A spiritual time away from the city, which includes hiking and sleeping in nature. A pastor / speaker leads the group.

Afternoon plan

**Planning evening
meetings with some
food, board games,
karaoke and new
challenges.**

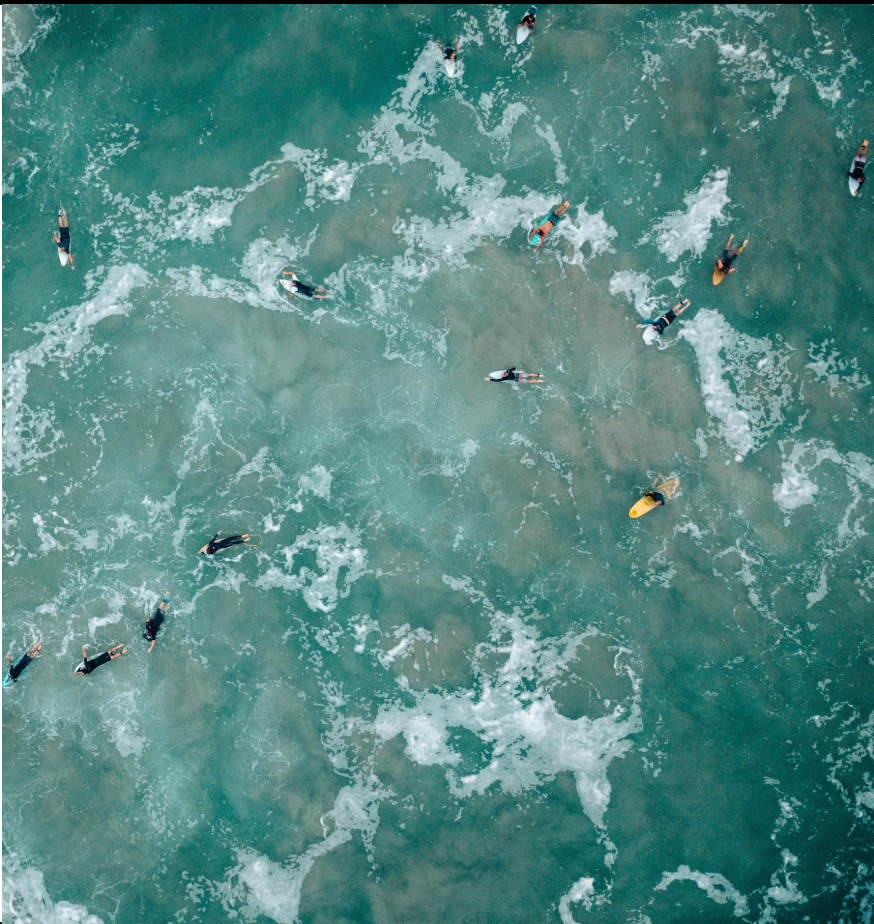

Board Game Café

**Creating a space to
foster community and
be able to pray with
friends.**

Sport Festival

**Organizing a weekend
trip as a local festival.**

Music in prisons

**Sharing music in
penitentiary centers.
A way to set free the
hearts of the people
inside.**

A mandatory: validate your ideas with your final users (young people). Listen first!

Thanks!
